BERRY GOOD
Takings up for
firm with Mary's
cake range

Finsbury Food Group, which makes a cake range by Mary Berry, has the recipe for sales success. Annual takings were up 3.8% to £315million, partly thanks to buying gluten-free bread maker Ultrapharm last June. But profits are expected to have a bit of a soggy bottom, with analysts forecasting they'll dip from £17.2m to under £16m.
